

	ACCREDITATION BODY OF MONTENEGRO	Reference No. / Date ZPQ.00.01/24.12.2019.
	CATALOGUE OF SERVICES OF THE ACCREDITATION BODY OF MONTENEGRO	Page / Total Pages 1 11

The Accreditation Body of Montenegro (ATCG) is an independent and non-profit institution which, in its capacity as the national accreditation body and in the public interest, performs accreditation of conformity assessment bodies in accordance with the Law on Accreditation (“Official Gazette of Montenegro”, No. 54/09 and 43/2015) and the Decision on the Establishment of ATCG (“Official Gazette of the Republic of Montenegro”, No. 21/07 and “Official Gazette of Montenegro”, No. 13/2025, 35/2025 and 117/2025). The Law on Accreditation is harmonised with Regulation (EC) No. 765/2008 governing accreditation within the European Union.

ATCG is a full member of the European co-operation for Accreditation (EA) and a signatory to the EA Multilateral Agreement (EA MLA) in the following accreditation schemes: testing (ISO/IEC 17025), calibration (ISO/IEC 17025), medical testing (ISO 15189), and certification of products, processes and services (ISO/IEC 17065). ATCG is also an associate member of the International Laboratory Accreditation Cooperation (ILAC).

Accreditation confirms the integrity and technical competence of organizations providing conformity assessment services, such as: testing laboratories, calibration laboratories, medical laboratories, inspection bodies, certification bodies for products, processes and services, management systems certification bodies, verification and validation bodies, proficiency testing (PT) providers, and similar entities.

Accreditation also supports the implementation of technical legislation governing safety and facilitates the free movement of goods within the internal market, ensures the protection of public health, consumer protection, environmental protection, and regulates other areas of public interest.

	ACCREDITATION BODY OF MONTENEGRO	Reference No. / Date ZPQ.00.01/24.12.2019.
	CATALOGUE OF SERVICES OF THE ACCREDITATION BODY OF MONTENEGRO	Page / Total Pages 2 11

In accordance with its non-discrimination policy and the Accreditation Rules (ATCG PA.01-6), ATCG shall accept and consider all applications for accreditation submitted by conformity assessment bodies interested in accreditation, provided that the requested scope falls within ATCG’s field of activity as defined in this document.

In other cases, prior to submitting an application for accreditation, the conformity assessment body shall send a letter of intent to ATCG, in order for ATCG (where applicable and justified) to conduct the procedure defined in the document Development of Accreditation Schemes and Evaluation of Conformity Assessment Schemes (ATCG PR.06).

Information on conformity assessment bodies accredited by ATCG, together with their scopes of accreditation, is available in the form of an electronic Register of Accredited Bodies, which is publicly accessible on the ATCG website (www.akreditacija.me).

For the purpose of informing interested parties and ensuring transparency of the accreditation process, the ATCG website provides information on accreditation requirements/criteria (document ZPR.01.27-1), accreditation procedures and rules (documents PA.01 – PA.06), costs related to the accreditation process (Decision on the Amount of Accreditation Fees), as well as other relevant information concerning the work of ATCG and the implementation of accreditation activities.

FIELDS OF CONFORMITY ASSESSMENT FOR WHICH ATCG PROVIDES ACCREDITATION SERVICES

1. TESTING in accordance with the standard MEST EN ISO/IEC 17025

PRODUCT OF TESTING	SCOPE/TYPE OF TESTING
Products for Human Consumption (Food Products, Food and Beverages) Agricultural Products Animal Feed Tobacco Products	<ul style="list-style-type: none"> - Physical Testing - Chemical Testing - Biological and Biochemical Testing; Microbiological Testing - Sampling
Environmental Samples (Water, Air, Soil, Waste, Noise)	<ul style="list-style-type: none"> - Physical Testing - Chemical Testing - Biological and Biochemical Testing; Microbiological Testing - Acoustic Testing and Noise Measurement - Ionizing Radiation Testing - Sampling
Fuels (Gaseous, Liquid and Solid) and Lubricants Chemicals, Chemical Products and Cosmetics (Including Fertilisers and Paints) Pharmaceutical Products	<ul style="list-style-type: none"> - Physical Testing - Chemical Testing - Biological and Biochemical Testing - Microbiological Testing - Toxicological Testing - Sampling

Construction Products, Materials and Structures Industrial Materials and Products, Including Metals and Composites	<ul style="list-style-type: none"> - Physical Testing - Chemical Testing - Mechanical and Metallographic Testing - Fire Testing - Geomechanical Soil Testing - Sampling
Electrical Products and Equipment Telecommunications and Electronics, Including Software	<ul style="list-style-type: none"> - Electrical and Electronic Testing - Electromagnetic Compatibility (EMC) - Non-Ionizing Radiation Testing
Machinery, Plants and Equipment, Including Gas Installations and Pressure Equipment	<ul style="list-style-type: none"> - Physical Testing - Mechanical and Metallographic Testing - Non-Destructive Testing (NDT)
Vehicles	<ul style="list-style-type: none"> - Mechanical Testing - Electrical and Electronic Testing - Optical, Photometric and Colorimetric Testing - Type Approval Testing
Materials in Contact with Food, Skin and Mucous Membranes, Excluding Personal Hygiene Products	<ul style="list-style-type: none"> - Physical Testing - Chemical Testing - Microbiological Testing
Packaging and Packaging Materials Plastic and Rubber Product	<ul style="list-style-type: none"> - Physical Testing - Chemical Testing - Mechanical Testing
Textiles, Leather, Fabrics, Yarns and Clothing	<ul style="list-style-type: none"> - Physical Testing - Chemical Testing - Microbiological Testing
Personal Protective Equipment (PPE)	<ul style="list-style-type: none"> - Physical Testing - Electrical and Electronic Testing
Biological Material (of Human, Animal and Plant Origin)	<ul style="list-style-type: none"> - Chemical Testing - Biological and Biochemical Testing - Microbiological Testing - Forensic Testing - Sampling
Forensics	<ul style="list-style-type: none"> - Chemical (Forensic) Testing

2. CALIBRATION in accordance with the standard MEST EN ISO/IEC 17025

CALIBRATION FIELDS	Dimensional Quantities
	Mass
	Volume
	Humidity
	Pressure and Vacuum
	Temperature
	Electrical Quantities (DC/LF)
	Electrical Quantities (HF)
	Time and Frequency
	Ionizing Radiation
	Force and Power
	Optics
	Chemistry and Reference Materials

6. CERTIFICATION OF MANAGEMENT SYSTEMS in accordance with the standard MEST EN ISO/IEC 17021-1

AREAS OF CERTIFICATION	Quality management systems (ISO 9001)
	Environmental management systems (ISO 14001)
	Occupational health and safety management systems (ISO 45001)
	Food safety management systems (ISO 22000)
	Information security management systems (ISO/IEC 27001)

Note: The Accreditation Body of Montenegro (ATCG) is not a signatory to the EA MLA Agreement in the accreditation scheme for certification bodies certifying management systems

Updated: December 2025.
