Mrs. Anita Krulanovic

Our Ref.: EA/2023/SECR/95/DI

Paris, 5th October 2023

Subject: **ATCG Peer Evaluation**

Dear Mrs. Krulanovic,

During the 49th EA Multilateral Agreement Council (MAC) held on 4th and 5th of October 2023 in Brussels, Belgium, the outcome of the initial peer evaluation of ATCG, performed between 28th of November and 2nd of December 2022, was subject to decision by the Council.

The decision is transcribed below:

Based on the initial peer evaluation report and the report provided by the TFG appointed to review the evaluation report of ATCG, the MAC decides that ATCG complies with all relevant requirements and decides that ATCG is recognized as EA MLA signatory in the fields of testing (EN ISO/IEC 17025) including medical examination (EN ISO 15189), calibration (EN ISO/IEC 17025), inspection (EN ISO/IEC 17020), and Product Certification (EN ISO/IEC 17065).

Moreover, the MAC decides that based on the outcome of the peer evaluation ATCG does not comply with the requirements and is not granted the signatory status for the field of Management System Certification (EN ISO/IEC 17021-1).

The next re-evaluation of ATCG shall take place in 2 years, in November 2024.

This decision is valid from 5th October 2023.

We would like to congratulate you for this achievement.

Kind regards,

Maria Papatzikou
EA MAC Chair
